President's Message
Alwyn D'Souza, President, FPS UK
I feel honoured by the trust and confidence in assigning the Presidency of FPS UK. It is a great privilege to take over from Professor Tim Woolford, who has set very high standards to our society.

Picture Quiz

An 82 year old presented to the local otolaryngology team with an intermittent bleeding mass in the left neck. It had been slow growing for the past 3 years but had only become symptomatic recently due to the bleeding. He otherwise resided in a nursing home due to his dementia and was considered unfit for a general anaesthetic.

What would your main differentials include? Read more.
